

Safegas have a vacancy for an Apprentice Heating Engineer

Safegas are passionate about bringing heating to residents across North, West and South Yorkshire. We pride ourselves on adhering to the following values: quality, reliability, honesty and exceptional service.

As well as supplying, maintaining and installing the best heating products on the market, from the world's leading manufacturers, we're committed to attending all emergency call-outs either on the same day or at the latest the next day, no matter what time of year.

Versatile and multi-skilled, our team of local, directly employed engineers are Gas Safe registered. We're proud to boast that last winter we attended 90% of breakdowns on either the same day or next.

The Candidate

- Should be presentable and an excellent communicator.
- Have a desire to learn new skills and have a careful and methodical approach to your work.
- Have the ability to use your initiative.
- Have minimum 4 GCSE Grades C or above including Maths, English and Science.
- Be able to pass the entry assessment for Leeds College of Building.

The Position

- Will be to support your lead engineer in their daily activities installing, servicing and maintaining boilers and heating systems, by implementing your newly learnt skills from college or one to one training.
- To attend college to attain the Level 3 NVQ Diploma in Gas Installation and Maintenance (Domestic) Advanced Apprenticeship at the Hunslet Campus.
